

French Inspiration

At One Group Design + Build, we specialize in creating spaces that blend timeless elegance with impeccable craftsmanship, and this Traditional French bathroom moodboard is a perfect example. The warm glow of brass finishes and intricate details pairs effortlessly with the striking beauty of Calacatta Viola stone, while the color story: Benjamin Moore's OC-45 Swiss Coffee on the walls, OC40 Cloud White on the ceiling, and 1232 Fresh Brew for accents; creates a balanced palette of warmth, brightness, and depth. The freestanding bathtub paired with the tub faucet, sink faucet, and shower fixtures each adorned with French-inspired detailing on the handles and shapes, serves as the perfect main character of the space. With classic, clean-lined cabinetry and a precise tile layout, every element is thoughtfully chosen to honor the heritage of French design while embracing modern comfort, resulting in a serene and sophisticated retreat.
